Education

2021-Now	**Master in Computer - Information technology**
	University of Tehran - Aras international campus · Tehran, Iran 📍
	I just started to study information technology to learn how i can use my knowledge in softwaer engineering.
2016-2021	**Bachelor of Computer - SoftWare Engineer**
	Shahid Bahonar University · Kerman, Iran 📍
	· Thesis Title: Design and develop an IDE to write Functional Test–|– Supervisor: Dr. Hossein GhasemAliZade
	Description: Testing tools has a long way to go. Selenium Web-Driver IDE is a windows application which provides a friendly UI for making WebDriver test for web applications based on selenium Python and C#.

Notable Projects

Soccer Robot, Can Find (ball and target), Catch, Shoot | ic: IC nxp lpc2368 (ARM cortex M3) | OpenCV used for Image Processing	*C, C++*
Selenium WebDriver IDE (Thesis) , WPF Windows App	*C#, Python*
Management and monitoring for enterprise systems , React web app	*.NET, React*
Professional Calculator , Windows form App	*C#*
NQueen Solver, Script	*Java*
Insurance Center Management, Windows App using WPF	*C#*
Mouse in maze, Windows form App	*C#*
Language School Institute, Windows App	*Python (tk)*
Distance Meter, UltraSonic module with STM32F103	*UART, C*
Compiler, Lexical Analyzer	*Python*
Compiler, Syntax Analyzer	*Python*
Library Management, simple book system for libraries	*Java*
Bodybuilding Club Management, Web App	*PHP*

Research Interests

SoftWare Engineering, Programming & Coding in General
Machine Learning, Deep Learning & Computer Vision
Artificial Intelligence,
VR, AR,
Designing,

Experience

|	
2020-Now	**Tester and software designer and devloper** INSTITUTE OF APPLIED INTELLIGENT SYSTEMS · Tehran, Iran 📍 Support: • Implementing multiple samples of enterprise systems on test servers and providing customer support. Development: • Migration in testing methods. (Paper available) • Designing and developing an application for developing functional test for enterprise systems. • Designing and developing an application for monitoring and management of enterprise systems. • Designing and developing an application for monitoring and management of enterprise systems.
2018-2020	**Freelancer** · Kerman, Iran 📍 Mostly c# application projects in any form .

Programming

Python — General Purpose
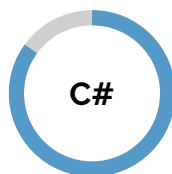

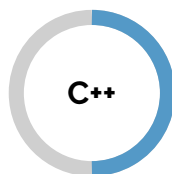

C# — Object-Oriented Programming
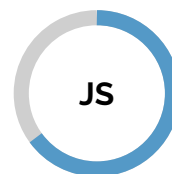

JS — Web Developing

HTML5 — Web Pages

CSS3 — Designing

C++ — Scripting
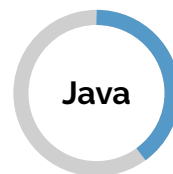

Java — Application

VHDL — Simple Designs
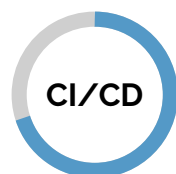

CI/CD — General Purpose
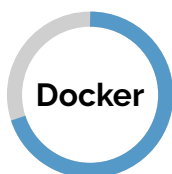

Docker — General Purpose
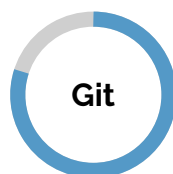

Git — General Purpose

SQL — General Purpose
